## Description

Dominator say that they do not build production yachts and this is proven by this DOMINATOR 800 yacht for sale, which is custom-built and tailor-made to an exquisite style.

Built on a GRP and carbon fiber planing hull in 2015, and delivered to an experienced Owner, this DOMINATOR 800 is stylish and sporty, beyond the comfort and practicality she offers.

Her shape is clean and tidy with large windows enhancing the smooth flow of the hull lines. The superstructure towers above with a full-length opening hard top on the flybridge in carbon fiber dominating the water. Italian designer Alberto Mancini worked with the yard on this powerful and impressive profile.

On the foredeck, there is a sunbed and a curved settee with matching table for evening drinks. Aft on the main deck, a spacious teak table is the perfect spot for al-fresco dining.

All decks are covered in beautifully crafted teak to give this flybridge yacht, a truly nautical look.

The DOMINATOR 800 is very impressive from the outside but when you will walk through the salon doors, you'll enter her highly refined interiors with the greatest attention to detail in pure Italian style, where warmth and texture are contrasted with low white settees and glass tables. The floors are wood and the large windows allow a great outside panoramic view on the sea.

The staterooms are a real haven of rest with the same low-key décor as in the salon but with more oak wood in evidence. The yacht features a luxurious and spacious 4-stateroom layout with 2 twins and 2 doubles, which are all en-suite with quality stone widely used in the bathrooms. The master suite located amidships has large hull windows that allow a marvellous view "on the water" from the bed.

The crew quarters for 3 crew members are aft of the engine compartment with access via the hi-lo swim and tender platform.

For further comfort, the yacht is equipped with zero-speed stabilization and a state-of-the art entertainment package.

Propulsion on this DOMINATOR 800 is ensured by twin 1800 Hp MAN Diesel engines mounted on German gearbox manufacturer Reintjes' Fortjes 4000 pod system for high manoeuvrability. She reaches a top speed of 35 knots and cruises at 25 knots.

The yacht has benefited from professional maintenance and presents in excellent condition. Offers are welcome.
