Description

This 86' FERRETTI CUSTOM LINE NAVETTA 26 motor yacht, was built in Italy by Custom Line with teak decks, a semi-displacement GRP hull, and GRP superstructure, and delivered in 2008. The naval architecture was developed by CRN and she was designed by Zucon International Project, who also designed the interior. She is now comprehensively refitted in 2021.

Her top speed is 14 knots, while her cruising speed is 12 knots and her power comes from twin 900 Hp MAN Diesel engines.

She can comfortably accommodate in luxury and style up to 12 guests in 5 staterooms, with 4 crew members waiting on their every need. Amongst other "last-generation" features, the yacht boasts the full-beam Master suite on the main deck.

This splendid CUSTOM LINE NAVETTA 26 for sale also features huge volume for Owner and guests, commercial registration, offering phenomenal ownership versatility and providing a wonderful platform to enjoy many wonderful weeks of yachting each season.

Her wonderfully spacious sundeck with BBQ grill and her vast opening bathing platform converting to stern beach club providing fantastic access to the water.

Carrying dual zero-speed stabilizing system, This CUSTOM LINE NAVETTA 26 is a great example of what modern yacht architects are capable of by maximising on space, light and comfort. The styling of this flybridge yacht is very easy on the eye and neutral in taste.

In a nutshell, she is the perfect family yacht but also viable for a successful charter business.

KEY FEATURES

Main deck with vast saloon, dining area, fully equipped galley and day-head

Crew Accommodation:

- 2 x Cabins with bunkbeds for up to 4 Crew

Pilothouse on upper deck with upper saloon settee/table/crew mess

LAYOUT

Boarding the vessel is by hydraulic, retractable Passarelle. Below is the vast, teak-laid opening bathing platform.

Arriving the spacious aft deck, the yacht is equipped on both sides with hidden mooring winches and cleats that Ferretti became famous for in the 90's.

In the aft part of the superstructure on port side there is a helm station that offers both main engine controls and bow and stern thruster controls.

You'll find a large sofa, rattan chairs and a fabulous dining table which is perfect for al fresco dining, whilst remaining in the shade from the sun.

A large sliding, glass door leads into the main saloon. The luxurious interior with wooden floor and blond teak panelling provides a stunning first impression and really gives the feel of comfort and quality. On the starboard side there is a large U-shaped sofa with grey/cream leather upholstery. This U-shaped sofa faces a large pop-up television on port side. Just forward of this lounging area is a large smoke glass table, accompanied by eight comfortable chairs styled perfectly in keeping with their surroundings.

The large saloon windows are a fabulous feature and one is immediately aware of how much light comes into this interior.

This model has the advantage of having just one interior steering position, which is in the upper wheelhouse. The freed-up space is utilised for a very spacious galley. From the galley, a staircase leads to the crew area forward, which is situated on the lower deck.

The Master stateroom is forward on the main deck and a comfortable distance from the saloon. The master stateroom is blessed with large windows on both sides, offering an abundance of light and a wonderful view to enjoy the scenery in comfort. On the starboard side there is a large bathroom with a spacious shower outboard and bidet and WC behind.

The large Owner's bed is on the center line and facing aft. There is a TV, stereo equipment and a vanity desk to complete this wonderful stateroom.

Light fittings throughout are in brushed stainless-steel.

From the galley, there is a watertight door that leads to the starboard side decks. Opposite the galley on port side is a day pantry and a second door to the side deck. The crew seating is located in the galley area and from here there is a staircase that leads down to the crew area.

The vessel accommodates up to four crew in two "bunk style" cabins. Each of these has its own WC and shower. The washing machine and separate dryer are installed in the corridor to the crew cabins.

From the hallway outside the galley, we find a spiral staircase that leads up to the bridge which besides the usual controls, offers a wonderful seating area that is suitable for guests or crew alike.

The window aft of the seating area can be raised electrically and the large glass door leads out to the aft deck from the bridge. This is particularly pleasant if one wants to drive in bad weather, but also good for privacy.

The aft deck offers a great seating arrangement, grill, hand wash basin and ice maker. Two stainless steel chromed poles aft of the seating arrangement support a bimini.

On the lower deck, the yacht offers accommodation for up to 10 Guests in 4 spacious staterooms. You have two identical doubles with en-suite bathrooms and also, two identical, twin cabins with en-suite bathrooms and a Pullman berth in each. Each cabin has a television, radio and an intercom to crew areas.

ELECTRICAL EQUIPMENT

Electrical Circuits: 220V-230V 50Hz / 24V / 12V

Generators: 2 x KOHLER 27 kW 220V/400W

Generator Hours: 7848 h (Oct. 2021)

Shore Power: GLENDENNING cable master

Batteries:

- Main Engines: 4 x Batteries, 190 A/h, 12V
- Generators: 2 x Batteries, 190 A/h, 12V
- Service: 12 x Batteries, 180 A/h, 12V

ANCILLARY MACHINERY

Air conditioning throughout
