Description

The AB YACHTS 100 is a sporty and performance motor yacht, but she is also indisputably dedicated to cruising. The AB Yachts shipyard remains true to the brand’s DNA by enhanced performances and flawless contemporary Italian design.

Boarding an AB YACHTS 100 means entering a world where the distinct exterior design perfectly reflects performance on a superb hull.

With her unmistakable profile, the AB YACHTS 100 (30 metre) ranks amongst the fastest yachts on the market. Her flowing and dynamic lines explicitly evoke her affinity for speed. Her hull was conceived to perform on water. As a matter of fact, her specifications are those of a "supercharged" sport yacht.

In her engine room, are carefully fitted three V12 MAN Diesels developing 2000 Hp. As expected, AB Yachts remains faithful to the Swedish MJP's waterjet propulsion system. The shipyard has a long history of working with this turbine specialist and the vessel is set to perform impressively at 45 knots while cruising and over 50 knots at maximum speed.

This performance 30-metre yacht, thanks to the in-house research department, enjoys a registered length of under 24 metres and its less restrictive requirements. New distinctive feature is the transom containing the traditional tender garage converting into a modern beach club.

This AB YACHTS 100 can accommodate up to 9 guests in 4 en-suite cabins: a master suite, a VIP cabin and 2 twin cabins. This performance superyacht also includes a fully equipped galley, a living room with a huge flat screen, a spacious sunbathing area aft and a stern with a chill-out area for more sunbathing.

This new AB YACHTS 100 for sale and 1st Quarter 2027 delivery, is designed to give unique and unexpected emotions and live your cruise as a thrilling experience in the utmost comfort, as only AB Yachts can offer.
