Description

Built in 2015, the ADMIRAL CLASSIQUE 35M is a Custom Series 116' 5" full displacement motor yacht, with a steel hull and aluminium superstructure, fully customised by the Owner and designed by the in-house design team of the Italian yard Admiral at The Italian Sea Group.

Her grey hull creates an elegant contrast with the white superstructure, which together with the wide windows on the main deck, deliver a sleek design to her external profile.

The ADMIRAL CLASSIQUE 35M flybridge Superyacht features a lowered mid ship bulwark to leave space for a panoramic balcony which is contained within the side passages. The flybridge completely covers the cockpit creating a great solarium area and on the same deck we find a dining area and a corner bar, the wheelhouse is directly accessible from the deck. At the very forward end of the hull, a nice relaxing area has been created to give more privacy to the Owner. At the stern, the transom opens to create more space and allows access to enjoy a beach club of remarkable size.

The interior was designed by GMC Architecture in cooperation with the Admiral in-house design team following the Owner's instructions and wishes with an emphasis on the wood, leather and steel details. All Guests cabins are situated on the lower deck as is the full beam Owner's cabin which can be accessed by the main saloon as well. Up to 9 guests can be comfortably accommodated in 4 en-suite staterooms comprising a full-beam Master suite, a forward VIP cabin and 2 convertible twin cabins to port and starboard. Further accommodation is provided for 5 crew members.

The ADMIRAL CLASSIQUE 35M boasts a huge range up to 4000 nautical miles and is powered by twin 1400 Hp MAN Diesel engines, providing a top speed of 16 knots, while cruising at 14 knots. Her economical speeds reaching her maximum range vary from 7 to 10 knots.

This splendid ADMIRAL CLASSIQUE 35M Custom series motor yacht for sale also boasts all features of a modern Superyacht such as zero speed stabilizers, a media room on main deck and a state-of-the-art entertainment system.

Viewings are highly recommended.
