Description

The newest generation 29m SANLORENZO SD96 semi-displacement GRP motor yacht model replaces the previous SD92 model launched in 2007 and is a natural evolution of the stylistic features that define the Italian Sanlorenzo yard.

Featuring exterior design by Zuccon International Project, tradition and history were a requisite for the external lines and design of this new model. Drawings were inspired from transatlantic liners of the 1930s, the aim was to create an elegant and classical model for modern clients.

This new SANLORENZO SD96 flybridge yacht showcases timeless interior designs by Patricia Urquiola, who focused on the yacht being able to adapt to the needs of its guests. The streamlined, minimalist approach to the space combines materials that mirror the flow of the ocean and clearly reflect the style of the Spanish architect and designer.

Having spent her first two seasons with private use only, this new generation SANLORENZO SD96 yacht for sale is now ready for immediate delivery to her next Owner, boasting full options including zero speed (underway and at anchor) stabilizers.

This SANLORENZO SD96 motor yacht also features comfortable accommodation for up to 11 guests in 5 en-suite staterooms with the master cabin on the main deck, 2 doubles and 2 twins with an additional Pullman bed on the lower deck, with further accommodation for 5 crew.

Powered by twin 1380 Hp MTU Diesel engines, the yacht reaches a maximum speed of 19 knots, cruises at 14 knots and boasts a long-range of 1700 nautical miles at her economical speed of 11 knots.

A quick move on this new vessel is highly recommended.

Please click on the « Full Specs » tab for complete details of this Semi-displacement Yacht for Sale.
