## Description

Built in 2011 and delivered in 2012, the 143' EUROCRAFT EXPLORER 44 motor yacht is a steel and aluminium tri-deck vessel with an ice-breaker displacement hull. Her imposing exterior combines the classic lines of a modern Superyacht with hints of a strong yacht, built to explore more remote destinations in the world. So far, she is one of the two largest yachts built by the Italian yard Eurocraft Cantieri Navali.

This explorer yacht features naval architecture and exterior design by Eurocraft Studio and elegant interior design by Eurocraft Studio as well as her Owner. This EUROCRAFT EXPLORER 44 is incredibly stable at anchor thanks to her zero speed stabilizers. She is tailor-made for adventures across the high seas; from the tropics to the poles, where all you need to do is kick-back, relax and enjoy the spectacular vistas as you cruise on by.

With an impressive beam of 8.2m and a draft of 3m, she boats a vast volume of 478 GT. She is powered by twin 805 Hp MTU Diesel engines, which give her a maximum speed of 13.5 knots, while cruising at 10 knots. She also boats an incredibly long range of 25,000 nautical miles at eco speed of 6 knots.

The EUROCRAFT EXPLORER 44 for sale is thus a three-deck yacht with large aft external deck and an expansive open sun deck with large Jacuzzi, two dining areas; one inside on the main deck and one alfresco on the aft bridge deck, the main saloon on the main deck and a comfortable sky lounge on the bridge deck. This provides numerous deck spaces onboard for socialising and entertaining.

Coded for charter in Bureau Veritas Class, she can hold up to 50 guests for parties and corporate events.

She provides luxurious accommodation onboard for up to 12 guests in 6 generous en-suite staterooms. The Master suite is located on the main deck and offers spectacular stunning sea views through its large oval windows, as well as encompassing a separate office, His and Hers bathrooms and a walk-in wardrobe. The lower deck holds 3 further cabins, a full-width VIP suite, one double cabin and one twin. The final 2 twin cabins are situated on the bridge deck. Guests onboard can relax with treatments from the onboard masseuse, with one guest cabin doubling as a massage and spa studio with sauna.

### KEY FEATURES
