Description

This 23.3m RIVA 76 PERSEO for sale is an elegant performance motor yacht which immediately strikes for its sleek features and colour scheme. Her Deep-V fibreglass hull presents a new shade of metal silver 'Moon Grey' as the dominating colour, combined with Riva's classical darker shade 'Bright Black'. The yacht's sporty look is further highlighted by the over 40 square meters of glazed surfaces: the large hull glazing on both sides, comprises two elliptical surfaces, ideally connected by the Riva design, one of the brand's distinctive and traditional features. The side glazing on the main deck is ideally 'cut through' by a handrail installed along the edge of the superstructure, which makes the yacht's profile even more slender and extends the overall size of the glazing in the main saloon, while ensuring the utmost safety along the outdoor passageways.

This fresh-looking coupe or, officially "Sportfly", is the result of a collaboration between the Officina Italiana Design studio, responsible for the design of the entire Riva range, and the Ferretti Group – owner of the Riva brand – itself.

This sporty design is primarily based on proportions, as it has a rather small superstructure with expansive glass areas (which promise and deliver brightness inside). The RIVA 76 PERSEO's aft is well proportioned, featuring a generous swimming platform with two staircases that flank the garage.

A retractable hydraulic gangway gives access to the teak-lined cockpit with lots of high-quality hardware, and impressively designed perforated stainless-steel guards. The RIVA 76 PERSEO's spacious sport fly perfectly harmonizes with the yacht's aerodynamic lines and ensures the utmost privacy and relaxation, with a second helm station and abundant sunbathing.

Spacious sunbathing areas forward and astern with comfortable cushions for the maximum comfort and relax, wide cockpit with dining table for al fresco dining, comfortable bathing platform giving easy access to the sea.

The bow deck is a true relaxation area, with a bench seat facing forward under a manual bimini, and a large sunbathing area at the very bow. When observed from the side, the Perseo's flybridge is almost invisible to the eye and is masterfully integrated into the general profile of the superstructure. Its layout is straightforward, with a U-shaped bench that surrounds the forward area, and a sliding bench that becomes the Captain's seat when the optional retractable wheelhouse is in use. The final touch on the flybridge is the sunpad behind the bench seat, using the space most often underutilized on sports coupes.

Elegant, minimalistic and refined tasteful Italian interiors, large windows giving brightness to the area, wide saloon with comfortable sofas and 40" TV are integrated with the formal dining area on the main deck. The main deck is separated from the cockpit by an electric panel that folds away to create a continuity between the Perseo's exterior and interior. This main deck itself is split onto three 'open space' areas, including the living room (complete with L-Shaped sofa) dining room (6-seats) and wheelhouse (with two seats) and as we mentioned earlier, the Perseo's huge glass area bathes these special places with natural light.

On the lower deck, a fully equipped galley is found to starboard complete with oven, combi refrigerator 230V, dishwasher, hob and hood. The night area offers the spacious accommodation for 6 guests in 3 en-suite cabins comprising of a full-width double bedded Owner's suite amidship with 32" TV, a VIP suite forward with 22" TV and a twin cabin with separate single beds. Each area of the vessel offers complete entertainment systems.

This RIVA 76 PERSEO can easily brag about its power thanks to twin 1800 Hp MAN V12 Diesel engines which can achieve 37 knots at top speed and 32 knots at cruise speed. With the Perseo's new hull the yacht is perfectly balanced at all times thanks to her Seakeeper gyroscopic stabilizer. With this lovely new model, Riva has created a new classic sportfly.

The Italian brand has perfectly preserved its roots, while designing an original, functional and modern yacht. The RIVA 76 PERSEO may be adventurous and pushes the boundaries in design, but it is without a doubt a full-blooded Riva.
