Description

This 26.49m (86' 11") SUNSEEKER PREDATOR 84 for sale is a luxury motor yacht built in the UK by Sunseeker in 2009. This Sport Yacht was made to combine sportiness and style without sacrificing space and comfort. Elegant and fast, it is the perfect blend of beauty and power. Most of the boat has been tailor made, taking care of every detail to achieve an interior and exterior without equal in its length.

Powered by twin 2650 Hp MTU Diesel engines, this performance yacht provides an exhilarating maximum speed 36 knots and a cruising speed of 30 knots.

The SUNSEEKER PREDATOR 84 is one of the most popular models ever produced by Sunseeker. This motor yacht is an excellent example of Sunseeker quality and craftsmanship and has been carefully looked after by a full-time crew and is in great technical and aesthetical condition.

This particular model is loaded with extras plus some special features like her hydraulic swim platform with stern tender garage. Boasting the additional Sports Flybridge to expand guests' utilisation, this yacht offers not only additional sunbathing space and panoramic vision whilst in control, but also offers privacy to Owner and guests when aboard.

On the outside, in addition to its characteristic colours, stand out the custom stern table that allows to comfortably accommodate 8 guests, a custom sport flybridge without helm station to provide more space and privacy and both a stern solarium and one in the bow with a dinette.

The accommodation follows the Predator philosophy with flow-through aft cockpit and main saloon, from which there are two stairways to the lower deck, one aft to the crew area and galley, another forward to the voluminous guest arrangements for 8 in 4 staterooms. With and amidships full-beam sumptuous Master suite equipped with a large bathroom and dressing room, a generous VIP cabin forward with dressing room and spacious bathroom and two twin cabins: one of them with a Queen bed and the other with two singles, all with their respective en-suite bathrooms.

In the living area, the most exclusive materials have been used, achieving an exquisite decoration and harmony. With a custom configuration, this motor yacht has been equipped with a layout that makes it much more spacious and elegant. The hard top sliding roof allows natural light to flood the interior offering a sense of freedom and sportiness when sailing unique in these boat lengths.

The yacht is also coded for charter. If you are looking for a yacht with performance and comfort, and also private or charter use, this sleek SUNSEEKER PREDATOR 84 is worth viewing at the earliest.

Please click on the « Other Details » tab for complete specifications of this Performance Yacht for Sale.
