Description

Different to other BALI 5.4 sailing Catamarans announced on the market, this preowned unit for sale is ready for immediate delivery and ready-to-sail with most options on the price list, including a 6 double cabin version and the two peaks fitted for crew .

New flagship of the Bali brand, the BALI 5.4 brings an abundance of innovative solutions as all the other Bali Catamarans. Once you step aboard this magnificent sailing vessel, you will realise that the focus of the design has been to make her sailing experience uniquely practical, luxurious, with an abundance of space, light and absolute comfort, the ultimate argument for the mastery of the BALI 5.4 having been the 2019 Multihull of the Year nomination!

A unique saloon offers an unparalleled amount of uninterrupted space and can be turned into a huge cockpit area by opening the large tilting glass door and side windows. The solid forward deck brings an incredible sunbathing area and a comfortable second forward cockpit that can sit the guests while it offers even greater comfort at sea. You can access the forward cockpit directly from the saloon by a door, which adds to the value of this living space.

This immediate delivery BALI 5.4 sailing catamaran comfortably accommodates up to 12 guests in 6 luxurious double cabins, each with en-suite bathrooms below decks while the crew has 2 separate cabins accessible directly from the foredeck peaks.

Built in GRP by the famous French yard Catana, with the design approach of creating a unique living space seamlessly connecting with aft as well as a forward cockpit, the Lasta Design Studio delivered an even more luxurious interior. Stunning views are either from the XL-flybridge or the bright saloon thanks to large windows. The dining table can sit up to 12 guests comfortably.

This BALI 5.4 catamaran for sale provides all state-of-the-art amenities on board providing an utmost of comfort and ensuring independent sailing and high manoeuvrability. Air-conditioned throughout, generator power and even a water maker are on board preparing this beauty to be ready going anywhere anytime. Hi-Fi entertainment systems are available thanks to the LED-TV and Fusion Bluetooth sound available in the saloon and outside.

Propulsion is ensured by twin 80 Hp Yanmar Diesel engines providing speed of around 9.5 knots, while the smart rigging and 204 square metre sail area insure optimum sailing performance.

Ideal for charter or private family use, this stylish and modern second-hand luxury catamaran has it all, finds herself in good condition and is based in Sicily, a very nice starting point to many islands on the Mediterranean.
