## Description

The highly acclaimed SANLORENZO SX88 is a 27 metre crossover motor yacht, very much appreciated by clients with several units sold. She is built on a semi-displacement GRP hull with GRP and carbon fiber superstructure with teak decks.

While her exterior was designed by Mauro Micheli at Officina Italiana, her interior design is penned by Piero Lissoni, one of most famous interior designers in Italy, with a younger generation in mind and offering a huge amount of space for its size, it is no surprise that the SX88 is so appreciated by international yachtsmen. This SX88 delivers space, comfort and practicality all wrapped up in a sleek and edgy Italian package with dynamic exterior lines.

Sanlorenzo describes the boat as a "social" yacht which offers a new way to live life on board. Observing the superstructure that reaches forward, and the beach area with the proportions of a large terrace, it became immediately clear that the SX line is a revolutionary project. Functions and uses of spaces intertwine, giving rise to a "crossover" yacht that is perfect for sophisticated contemporary Owners.

The side decks lead you to a welcoming aft cockpit which connects to the sunken beach area via two grand staircases. This entire area has the ability to launch water toys and tender in a matter of minutes showcasing a true family-sized beach deck. A Transformer platform makes accessing the water easy and enjoyable. The bow deck on the main deck features a more intimate seating area with sun pads.

Guests can experience all the comforts of home in a chic loft-style environment and hang out with friends and family while enjoying near 360-degree views of the surroundings.

Access to the flybridge via a central staircase inside the main saloon. This area is enclosed with a thin strip of wrap-around glass panels which can be lowered to let the fresh summer breeze through when laying at anchor while a retractable canopy above lets in some extra sunlight when needed.

The innovative helm station on the flybridge can be entirely enclosed and air-conditioned by the automatically operated side windows, leaving a free main deck that spreads on the same level from stern to bow – an exclusive loft on 27-meter yacht. The flying bridge can shift from a dining area with a long table for 9 guests to a lounge or a sunbathing deck.

The aft beach area is amazing, hosting tenders, water toys, and a davit to handle them; when they are removed, the area becomes a beach club of 30 square meters, for relaxing right next to the water.

Her highly manoeuvrable triple VOLVO IPS 1050 Diesel propulsion is characterized by a significant range of 1210 nautical miles at her economical speed of 10 knots but has the versatility to cruise at 20 knots and reaches a top speed of 23 knots. She delivers exceptional performance at sea, ensuring smooth, enjoyable sailing.

Interior design has also been carefully thought out to offer a luxurious, comfortable living space. Accommodation is ensured onboard for up to 9 guests in 4 en-suite staterooms comprising a forward panoramic Master suite on the main deck, a double VIP, a twin cabin convertible to double with sliding bed mechanisms and another twin with additional Pullman bed. Her interior design is airy and Italian contemporary style. Further accommodation is provided for 4 crewmembers in 3 cabins, 2 aft and 1 forward with bunk-beds, all with integrated facilities.

This 2019 SANLORENZO SX88 motor yacht for sale is available for purchase, with pristine condition, and coded for charter.

Her comprehensive list of options include underway and zero speed fin stabilizers for maximum comfort while sailing or at anchor, a nice jet tender, a wide selection of water toys, Wi-Fi connectivity, and more importantly, she can be registered under 24 meters.
