## Description

Brand-new 2024 17.35m ASTONDOA AS5 flybridge cruiser for sale featuring immediate delivery. This splendid 57' motor yacht of the very successful AS series, features a hydraulic swim platform, zero speed and underway Seakeeper gyroscopic stabilizer, interceptor trim system, a home automation control system, and much more.

The ASTONDOA AS5 is a mid-size flybridge yacht that imitates the lines of supercars by taking them to the sea and designed to meet the wishes of sportive owners who also love beauty and contemporary design combined with luxury, which this Iberian model does not fail to display. This is a fascinating vessel, whose flybridge allows a 360° panoramic view surrounded by a full glass canopy. Her T-top is a useful choice providing this AS5 an extra touch of beauty.

Transparency is particularly emphasized on the main deck: the saloon and the galley are both glazed, and it is in this characteristic that the inspiration of the world of supercars appears with precise aerodynamics dominated by sharp and clean lines up to the bow, grafted transversely on the water and armed with a steel tip from which the anchor can be easily lifted.

What seduces about the profile of this stylish and elegant flybridge cruiser is the glazed trapezoid which constitutes almost the entire main deck, to which is added the wide horizontal glass line which characterizes the entire lower deck, where the cabins almost touch the sea.

The conveniently located galley is accessed from the aft cockpit through a generous sliding door, also glazed. Further forward is the living room; here, the wood of the floor meets the aluminium frame reflecting off the walls. There is also an audio-visual entertainment center, with your guests sitting on the comfortable sofas to enjoy it. Continuing vertically on the flybridge, we find another "pleasant and intimate" space to share with friends while sailing. The cockpit is absolutely "ergonomic" and designed specifically to mimic the avant-garde design of sports cars.

This ASTONDOA AS5 comfortably accommodates 6 Guests in 3 cabins. The Owner's cabin spreads throughout the entire beam of the boat, with modern furnishings that meet rounded lacquered surfaces, suspended in the air to make room for LED lights on the ground. There is a beautiful bathroom, fitted with a designer sink and large mirror and shower room to complement the decor of the walls in a rich marble veining. Total "habitability" is also reserved for two additional cabins including a forward VIP double cabin and a port side twin cabin sharing a second bathroom/day head.

With twin 800 Hp MAN engines on shaft drives, this ASTONDOA AS5 can reach a top speed of 32 knots and comfortably cruises at 25 knots, while having an economical cruising speed of 22 knots.
