## Description

The PERSHING 140 epitomizes the "Pershing thrill" with its exceptional speed and agility. This superyacht blends elegance with high performance for an unparalleled yachting experience.

Launched in 2023, this 43.3-meter superyacht is one of the finest examples of the brand's first fully aluminium model and introduces innovative features such as a raised control console connected to the sundeck, a luxurious main deck Owner's area, and a versatile expansive stern beach club that opens on three sides.

As the largest and most advanced yacht in the Pershing fleet, the Pershing 140 showcases a sleek, aerodynamic design with customizable fittings. It results from a collaboration between Ferretti Group's Product Strategy Committee, Engineering Division, and designer Fulvio de Simoni. It is also the first Pershing built by the Ancona Group, renowned for its expertise in large steel and aluminium superyachts.

Besides her shallow draft of only 2.05-meters (6' 9"), the PERSHING 140 also offers underway and zero-speed stabilisation, a spacious beach club on the elevated aft deck, and the foredeck includes an open lounge with a solarium, Jacuzzi, and dining area. The sundeck is equipped with a bar, grill, and relaxation area.

The PERSHING 140 also boasts 5 en-suite staterooms for 10 guests including a full-beam Master cabin on the main deck with an Owner's office. The additional guest cabins are located on the lower deck, comprising 1 VIP cabin at the bow, 2 double guest cabins, and 1 twin cabin, all with en-suite bathrooms. The guests are attended to by 7 crew members in 4 cabins.

With four MTU engines mounted on water jets, and delivering 2,600 horsepower each, the PERSHING 140 achieves speeds up to 36 knots, enabling rapid cruising, such as traveling from Nice to Corsica in only four hours. While comfortably cruising at 30 knots, she is also capable of a range of 1,400 nautical miles at her economical speed of 10 knots.

This large sport yacht offers style and elegance in a highly upgraded and sleek package. The yacht is presented in as-new condition with low engine hours and shipyard warranty. She is Iso the only PERSHING 140 currently on the market, as the most advanced and upgraded yacht built by the Italian shipyard to date. She was built for an experienced Owner who has previously owned multiple Pershings.
