Description

38.1m Benetti 125 Fast Motor Yacht for Sale.

Delivered in 2019, this 38.1m BENETTI 125 FAST is a standout example of Benetti's Fast series, combining Italian craftsmanship with modern performance, fuel efficiency, and elegant, contemporary interiors standing out as an ideal option for an Owner seeking a fast yet elegant semi-displacement yacht in pristine condition.

With an ultra-modern interior design and décor influenced by a passionate original Owner fond of invention and technology, this BENETTI FAST 125 is a sporty, state-of-the-art vessel with a fast-displacement hull form providing the yacht the advantages of a displacement hull at low speeds, with those of a planing hull at fast speeds.

Built in fibreglass and carbon composites at the Viareggio yard, the FAST 125' is a three-decked (plus the sundeck) semi wide body yacht. The sportive exterior was designed by Stefano Righini with an interior penned by Redman Whiteley Dixon, combining sharp exterior lines with bright, contemporary interiors widespread use of horizontal windows that accentuate the streamlining, while her interior design was penned by together with a remarkable central structure in the side of the superstructure that covers the access stairway to the upper deck.

Her stern beach area has its own bar and is completely dedicated to enjoying the sea, thanks to the non-intruding lateral garage opening. Her sundeck, upper deck aft and forward, and aft deck propose several areas to fully enjoy the sea.

The interior layout boasts accommodation for 10 guests in 5 en-suite staterooms comprising 4 guest suites for 8 guests on the lower deck (3 queen VIPs, and 1 twin), plus the impressive and lavish full beam Owner's apartment on the main deck. The Captain will have a crew of 8 for running the yacht and catering to the guests.

The performance of the BENETTI 125 FAST's D2P-Displacement to Planing® hull form with wave piercer is also equipped with an innovative series of Azipull pods coupled to twin 2600 Hp MTU diesel engines with low engine hours. She delivers a top speed of 24 knots, a cruise speed of 17.5 knots, and an economic speed of 12 knots for a maximum range of 1250 nautical miles.

Her revolutionary hull form allows to use the yacht both in displacement mode with low fuel consumption for slow deliveries and at higher speeds in complete comfort. The quiet ride was obtained through the use of her special propulsion system which allows the engine room to be placed farther aft, providing increased isolation for the guest cabins. The FAST 125' was awarded the RINA Comfort Class classification, which proves how silent and smooth her ride is.

The yacht's excellent performance is also due to the lightness of the hull, thanks to the introduction of fibreglass and carbon fibre in the superstructure. This intelligent combination gives the yacht a 40% lighter weight when compared to traditional structures, where light weight equals improved performance.

Blending Italian craftsmanship with modern performance, this BENETTI FAST 125 ensures both fuel efficiency and comfort at sea.

KEY FEATURES

- Modern Benetti pedigree
- Revolutionary fast-displacement hull form
- The Displacement to Planing D2P hull form with wave piercer combines the advantages of a displacement hull at low speeds with those of a planing hull at high speeds
