Description

141’ Baglietto 43M Steel and Aluminium Superyacht for Sale.

This 141’ BAGLIETTO 43M steel and aluminium Superyacht is recognizable by its harmonious and powerful lines. Built to the highest standards in Italy by Baglietto in 2006 and extensively refitted in 2017, this motor yacht is distinguished by its grey hull with variable metallic reflections. Francesco Paszkowski was responsible for its beautiful exterior and interior design, making this the ideal tri-deck luxury yacht for a fabulous holiday on board, entertaining with family and friends while spending a dream vacation. Her layout over 3 decks and a total of 4 levels has been studied so that passengers enjoy comfort, serenity and privacy.

This BAGLIETTO 43M is Bureau Veritas charter compliant with strong charter records and equipped with an ultra-modern stabilization system reducing roll and motion effects. The result is a more enjoyable cruise experience while increasing comfort on board, anchored or while cruising in choppy waters. This 43-meter BAGLIETTO offers a comprehensive and exceptional luxury equipment and she is attended by a competent professional and full-time crew.

When boarding the gangway, the main deck lounge impresses with its size and design: simple, modern and elegant. The combination of wengé and beige leather exudes an atmosphere appreciated by all. LED lighting allows infinite changes to the internal and external environments.

An aft deck area complete with a low table, settees and armchairs, is the perfect place to enjoy breakfast: calm and proximity to the sea make planning the day enjoyable. Later, it becomes the starting point for onshore sightseeing or water sports.

The sundeck is synonymous with socializing with its large surface allowing to house a large Jacuzzi, sunbathing, an oval dining table for 8 guests to take their meals, a large bench and wetbar. The panoramic view is impressive because it is unobstructed from any superstructure and if the sun is too biting, a large sunbrella and a huge white awning can be deployed. At night the bridge takes another dimension because passengers can change the lighting colour (at their will) through a LED system, at the rhythm of the powerful sound system.

The upper deck of this BAGLIETTO 43M is the most used: a large table accommodates twelve guests for meals protected from the sun and is surrounded by a huge settee to 180°. The TV and media lounge allows also be seen from the outside. It also features a lounge with bar, allowing passengers to socialise having a drink, while having a breathtaking view of the sea. Further on, the wheelhouse is equipped with navigation and communication instruments of the latest generation. Passengers are invited to take part in navigation by being comfortably seated.

This BAGLIETTO 43M comfortably accommodates up to 12 guests across 5 beautifully appointed staterooms. The full beam Master suite is located forward on the main deck and consists of a private access from the outside, a desk, a dressing room and en-suite bathroom with Jacuzzi tub and hammam. It has a unique view through large openings on both sides of the vessel.

The 4 guest cabins are located on the lower deck and can be accessed from the main deck with a large staircase of futuristic design: two large VIP cabins with double beds and two twin cabins (two singles), each with the ability to deploy a third Pullman bed for a child. All cabins have en-suite bathrooms and are equipped with independent audio visual systems.

Powered by twin 1950 Hp Caterpillar diesel engines, the yacht cruises comfortably at 14 knots, reaches a top speed of 16 knots, and boasts an impressive 4,000 nautical mile range at 10 knots, ideal for long-distance Mediterranean or transatlantic cruising.
